

AI solution

How could water consumption in schools be reduced using AI?

How the AI solution works

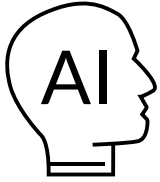

What will it measure?

How will it use the data?

What actions will it take?

AI solution

Draw a simple picture of the AI solution. Label the important parts.

AI solution

How could recycling and waste management in schools be improved using AI?

How the AI solution works

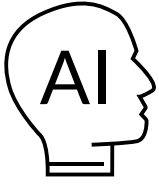

What will it measure?

How will it use the data?

What actions will it take?

AI solution

Draw a simple picture of the AI solution. Label the important parts.

AI solution

How could classroom air quality be improved using AI?

How the AI solution works

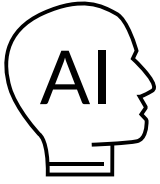

What will it measure?

How will it use the data?

What actions will it take?

AI solution

Draw a simple picture of the AI solution. Label the important parts.
