

Knowledge catcher: Programming: Scratch

Match each Scratch word to its description:

sprite

Used to start the program.

backdrop

The background of the stage.

block

A character or object you can code.

green flag

A coding instruction you snap together to build a program.

1

Can you name one thing you could make a sprite do using code blocks?

2

How can you make an animation fun and interesting?

3

What should you do if your sprite does not do what you expect?
